This memo addresses what appear on the October 15, 2002 report to be errors in the election cycle-to-date totals for several contributors. The incorrect totals appear on the original report due to a computer software error that our FEC approved software vendor, Aristotle, Inc., has been unable to resolve.

Schedule A, line 11(a):

Sandra Wagenfeld - should be \$1000

Academy of Dispensing Audiologists - should be \$4575 (\$2000 direct contribution and \$2575 earmarked contributions)

General Election Co PAC - should be \$0 (conduit only)

Schedule A, line 11(c):

DOCC - should be \$0 (conduit only)

There was also a receipt reported on Schedule A, line 15 as an "other receipt" without any additional explanation. This is the return of a general election contribution from a candidate committee that will not be participating in the general election this year. The computer software program does not provide any means to fully explain this receipt.
